High School Innovation Challenge · 2026

Lumio

Light up how you learn.

A hands-on, gamified tutor where students experiment, compete and level up, on laptop and phone.

EDUARD · DARIUS · STEFAN

THE PROBLEM

We learn by watching. We understand by doing.

Passive

Ten in thirteen students mostly read, watch or split their time when they learn something new. Few learn mainly by trying.

10 IN 13 DON'T MAINLY TRY IT

Long

One in seven loses focus in under ten minutes, and over half are gone by twenty. A long lesson loses them before the idea clicks.

1 IN 7 DRIFT UNDER 10 MIN

Unguided

When they get stuck, one in seven gives up and three in ten just re-read the same page. Nothing tells them what to try next.

1 IN 7 QUIT · 3 IN 10 RE-READ

THE GAP

Practice that feels like play.

Today

- Explanations come first, experiments rarely
- Practice sits apart from theory
- Feedback arrives late, if at all

With Lumio

- Try it first, the explanation follows
- Every lesson is a lab with four exercises
- Instant feedback, Lumens and a clear next step

THE SOLUTION

Meet Lumio.

A tutor you play with. Every lesson is a hands-on lab, scored in Lumens.

Experiment

Sliders and simulations in Physics, Math, Spanish and Life skills.

Level up

Lumens that never reset, plus a monthly Moon rating with ranks from New Moon to Blue Moon.

Compete

Challenges and a leaderboard keep sessions short and exciting.

Phone as controller

Use your phone's controls and tilt to drive the lab on screen.

COMPETITORS

How Lumio compares.

FEATURE	LUMIO	PHET	BRILLIANT	KHAN ACADEMY
Hands-on interactive labs	Yes	Yes	Yes	Exercises and videos
Lumens, monthly Moon rating, challenges	Yes	No	Streaks and leaderboards	Points and badges
Phone as a controller	Yes	Not found	Not found	Not found
Lessons under 5 minutes	Yes	Simulations, not lessons	Length not published	Length not published
Romanian and English	Yes	Yes, 61 sims in Romanian	No Romanian found	Romanian site since 2020, elementary first

THE CLIENT

Built for those who learn, and those who pay.

Students

Learners who want to understand a topic, not just memorise it.

HIGH SCHOOL FIRST · GRADES 9 TO 12

Parents

Parents of children under 18 who want short sessions and visible progress.

SHORT LESSONS · A CLEAR PROGRESS RING

Private schools

Schools that want hands-on practice their students enjoy.

POSSIBLE PARTNERS

OUR PLAN: FREE FOR STUDENTS · PRIVATE SCHOOLS PAY A CLASS LICENCE · PARENTS CAN ADD PREMIUM

VALIDATION

Seven in ten want to try it. Testers come back.

13

students surveyed

> “I don’t like that it’s in English.”

STUDENT, SURVEY · translated from Romanian. Lumio already works in Romanian.

4 of 5

testers would use it again next week

> “Nothing, it’s perfect.”

STUDENT, SURVEY · asked what we should change

ANONYMOUS STUDENT SURVEY · 13 RESPONSES · TESTERS TRIED THE LIVE APP

THE BIG IDEA

Learn with your hands, not just your eyes.

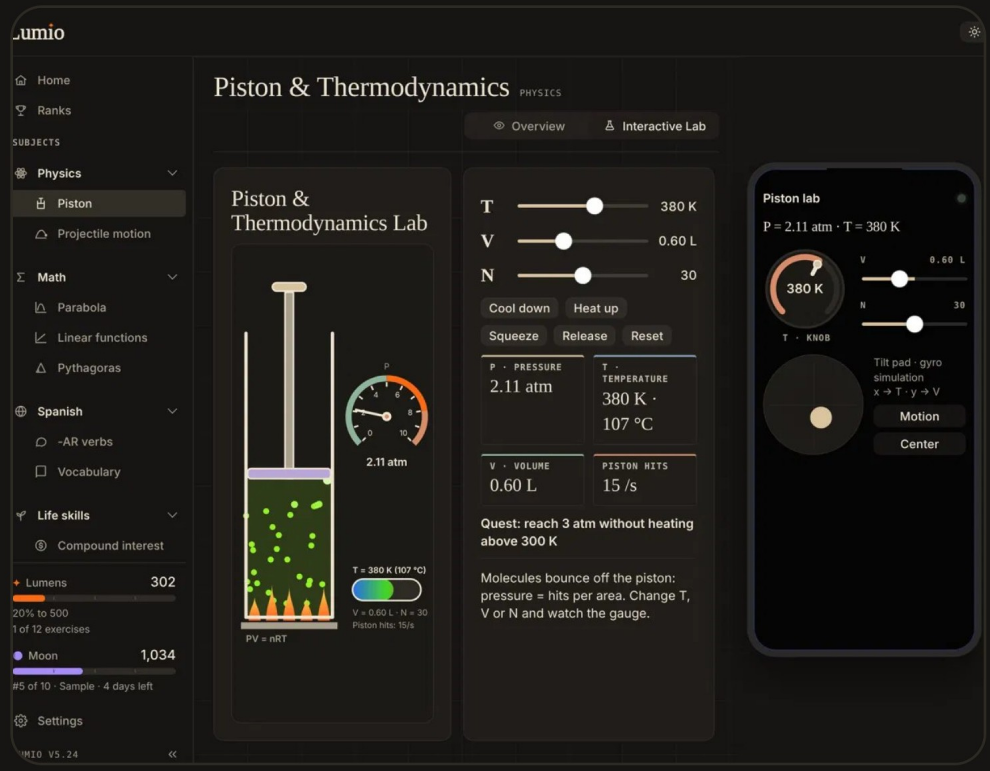

Your phone becomes the controller. Slide, tilt, and the experiment on the big screen reacts at once.

01 Your body builds the intuition. Feeling a value change beats reading it.

02 Every student already owns one. No kit, no extra cost.

03 Two screens, two jobs: the laptop shows the model, the phone is your hand.

AS FAR AS WE FOUND, NO MAINSTREAM LEARNING APP DOES THIS

THE APP · 1 OF 4

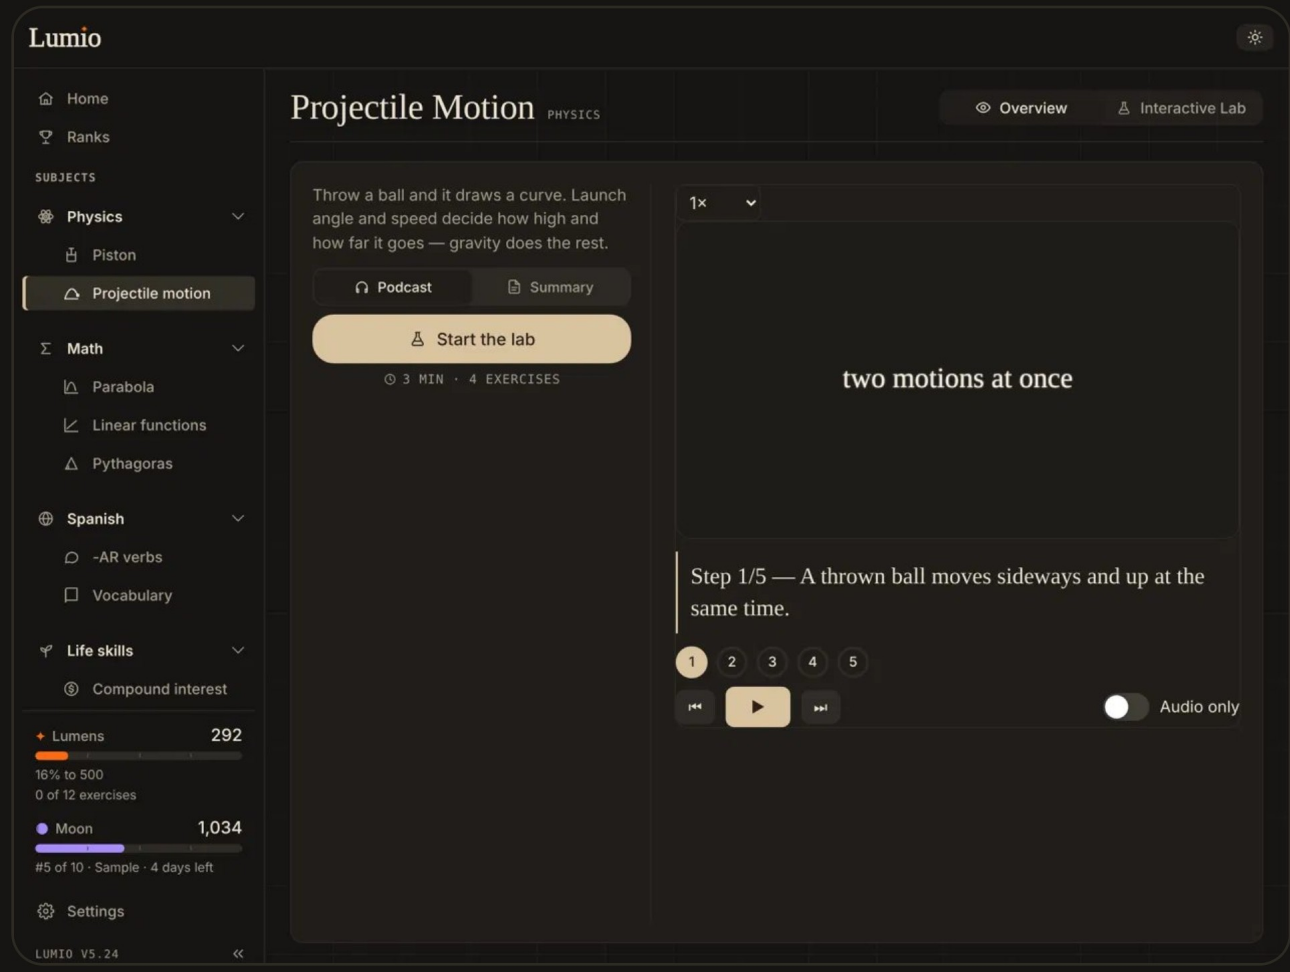

Learn in minutes.

Overview with a Podcast or a Summary

3 min and 4 exercises per lesson

English and Romanian

Six themes: Tiramisu, Coral and Mint, light and dark

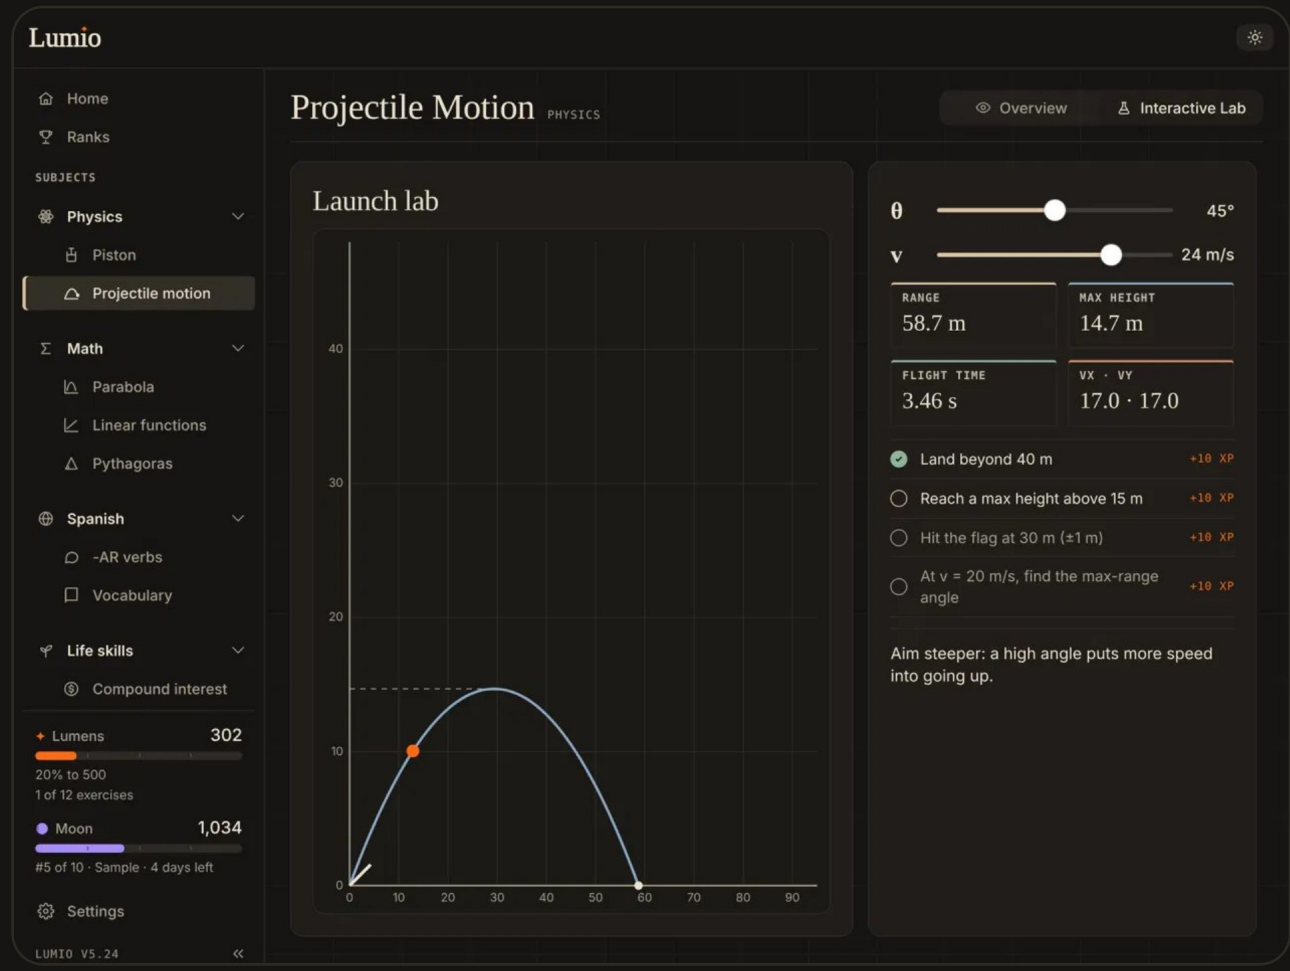

THE APP · 2 OF 4

Experiment, don't memorise.

Piston lab: pressure, volume and temperature, live

Projectile motion, linear functions, compound interest

Exercises unlock in order: +10 Lumens each, +15 bonus

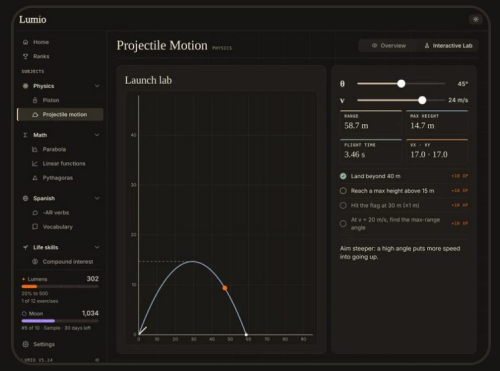

THE APP · THEMES

Six themes. Make it yours.

Tiramisu, Coral and Mint, each in light and dark.

Switch in one tap. Text stays readable in a bright classroom or at night.

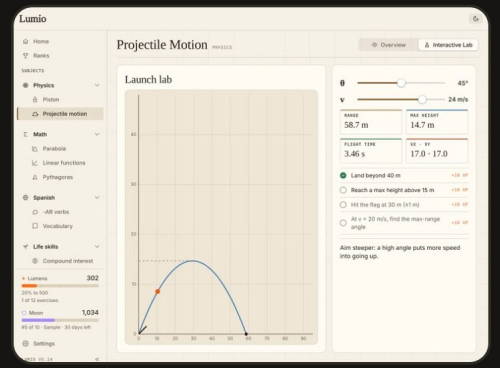

TIRAMISU · DARK

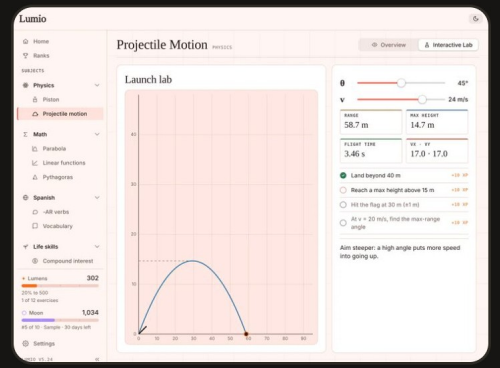

CORAL · DARK

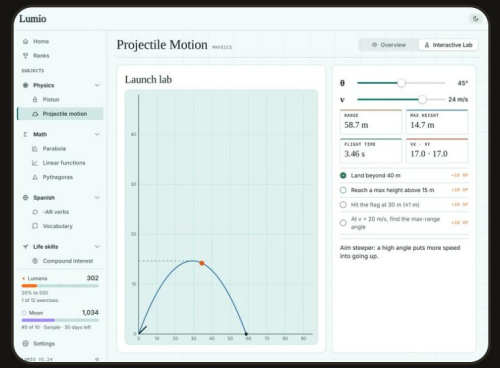

MINT · DARK

TIRAMISU · LIGHT

CORAL · LIGHT

MINT · LIGHT

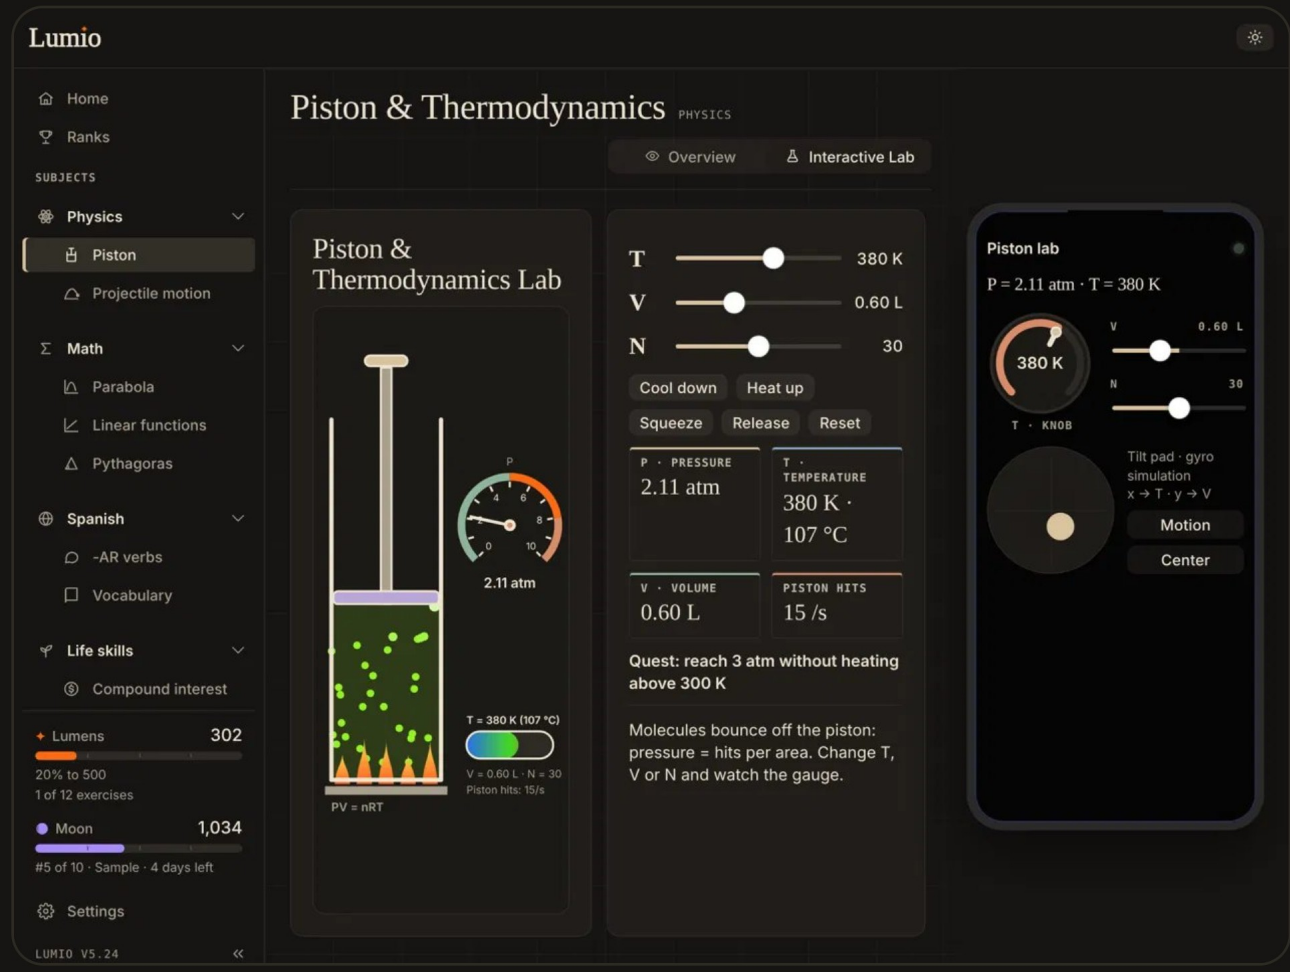

THE APP · 3 OF 4

Your phone is the controller.

Sliders and tilt drive the lab instantly

Side-by-side or floating phone view

Connects on the local network with a QR code

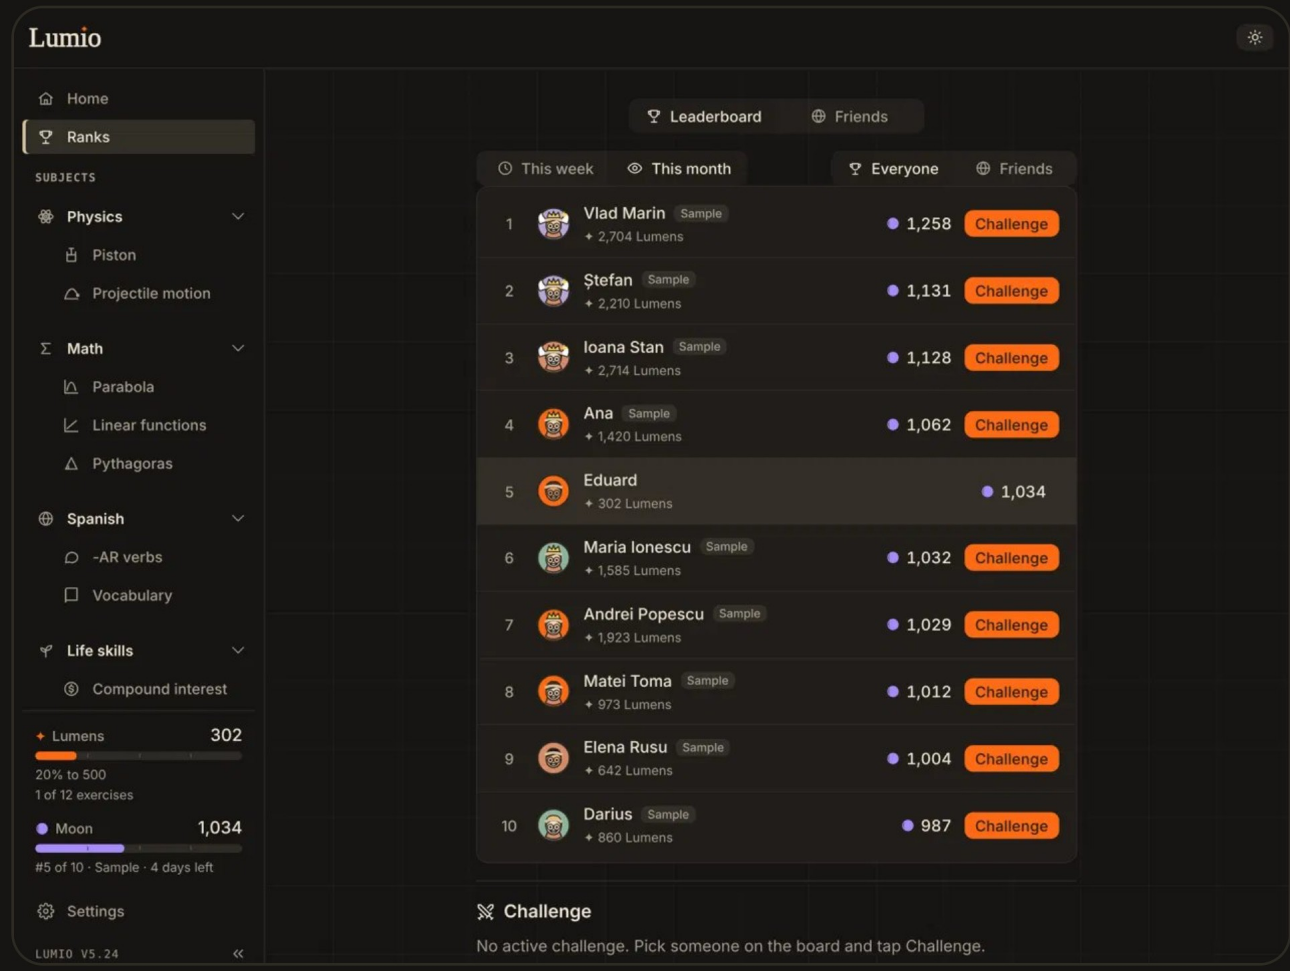

THE APP · 4 OF 4

Compete and level up.

Challenge mode with a leaderboard

Lumens that never reset, plus a monthly Moon rating with ranks from New Moon to Blue Moon

Confetti only when you win a challenge

NEXT STEPS

From prototype to every classroom.

Clearer maths

Equations that look like a textbook, in every lesson.

NEXT RELEASE

More lessons

New labs across subjects, built on the same lesson template.

CHEMISTRY AND BIOLOGY FIRST

Test with real classes

Students and teachers in real classrooms tell us what works, then we improve it.

NEXT: REAL CLASSROOMS

The prototype works. Next, we prove it in classrooms.

Eduard

Head of design and app

Student council leader, AIS Dubai, 2025 to 2026

Organised activities within the school curriculum.

Spartachiada, military high schools competition, 2024 to 2025

Our basketball team placed third among the military high schools.

Spark Days, 2026

Led logistics and coordination as the team took a brief to a full marketing campaign in 4 hours.

Highest GPA in my age group and Citizenship Award, AIS Dubai, 2025 to 2026

Top grades of the year group, and chosen as a role model for other students.

Darius

Team leader · survey and outreach

County basketball champion (National School Sports Olympiad)

Led the team as captain into the National Finals

Member of Interact Suceava-Bucovina

Took part in activities regarding the health and ecological situation in Suceava

Spark Days, 2026

Creative lead and on-screen actor in a full marketing campaign built from a brief in 4 hours.

Hands-on technical and engineering experience

Handled technical operations during an internship at his family's construction firm.

THE TEAM · 3 OF 3

Stefan

Lead technical and debugging

Participant, High School Innovation Challenge, 2026

Member of the team that built and submitted Lumio.

Michiana Premier Event, 2025

Driver 2 and Lead 3D Designer, Royal Engineers 20936 robotics team.

Car reviewer, electromobilitate.com

Author of a full review of the Rivian R1T electric pickup.

THANK YOU

Learn by doing. Rank by growing.

Lumio turns every lesson into an experiment you control, and every experiment into progress you can see.

LUMIO · EDUARD · DARIUS · STEFAN
